## Project Highlights | Tradin Orange Project

Tradin has sustainable citrus projects in two major growing regions of Mexico. In Eastern Mexico we certify growers in the States of Vera Cruz, Tamaulipas, and Nuevo Leon and in Northwest Mexico in the State of Sonora. We have developed these projects providing education and support in the field and at our processing facilities. We work with local growers to achieve maximum flavor and fruit maturity to provide the highest quality products.

- IQF: Dices/Chunks
- Juice Concentrate
- NFC Juice
- Canned: Crushed, Rings, Chunks
- Crushed Frozen
- Puree

## Origin Story | VI Foods

Tradin Organic's operations in Vietnam, Vi Foods, has been in operation since 2001. The project started in the south of Vietnam, and has since evolved into larger projects across the country.

Today our Vietnamese operations supply an exceptional variety of premium organic products: including pineapple, passion fruit, and other products such as cashews, tapioca flour and syrup. The success of this project derives not only from the high quality of the produce but also from its positive social impact. By providing support and training, we teach farmers how to increase their yields without the use of agro-chemicals.
