

# Date

## Syrup & Powder

At Tradin Organic, it is our mission to make organic everyone's first choice. We work with dedicated producers who share our commitment to purity, traceability and sustainability, ensuring a secure and consistent supply of high-quality ingredients. With our date products, this means delivering versatile organic solutions that offer you both the natural integrity of the fruit and the functionality required for your applications.

## Date syrup

Date syrup is a naturally smooth sweetener that adds rich, fruity sweetness while helping products stay soft and moist. It blends easily into bakery, drinks, sauces, and snacks, offering a clean-label alternative to refined sugar.

### Nutritional value

- Antioxidant properties
- Natural source of minerals (calcium, potassium)
- Slow-release natural sweetener
- Unrefined, single-ingredient sweetener

### Applications

- **Bakery and confectionery:** fillings, glazes, cakes, muffins
- **Beverages:** smoothies, dairy and plant-based drinks
- **Retail packs:** ready-to-use table sweetener
- **Sports nutrition:** nutrition bars

### Available as

- **Bucket:** 25kg
- **Drum:** 280kg
- **IBC Tank:** 1400kg

## Date powder

Date powder is a natural, clean-label sugar replacement that's easy to use in dry mixes, cereals and instant drinks. With its mild caramel flavor, added fiber and minerals, it enhances taste and texture in bars, bakery items and more.

### Nutritional value

- Antioxidant properties
- Clean-label alternative to refined sugar
- Naturally high in dietary fiber
- Source of potassium and magnesium

### Applications

- **Bakery and snacks:** energy and protein bars, dry mixes, cereals and granola
- **Confectionery and chocolate:** chocolate bars, chocolate spreads, fillings
- **Dairy and plant-based:** protein shakes, ice cream, blends
- **Retail packs:** portion packs for food service and retail

### Available as

- **Carton:** 10kg

## Certifications

- The products comply with internally recognised food safety standards.
- Our certifications and audits ensure that our products are produced with minimal impact on environment, preserving biodiversity and ensuring the safety of our facilities.
